About the Congress

The cooperation of European cities and regions at the economic and social levels has a significant impact on the politics and economy of our continent.

The 9th European Congress of Local Governments is a platform for the exchange of views and a meeting place for local government leaders, regional elites with representatives of state administration, non-governmental organisations and business.

The programme includes more than 150 events: programme blocks, reports, discussion panels, workshops, lectures, presentations. The debates of the Congress will touch, among other issues, the problems of contemporary urban planning, mechanisms of urban and regional development, investment financing, environmental protection, health policy and the activities of local governments in the new reality.

Why is it worth to join us?

- + Nearly 2,500 guests – local government leaders and regional elites, representatives of state administration, business, culture, NGOs, media from the countries of Central and Eastern Europe
- + An excellent opportunity to promote cities and regions to visitors and media from all over Europe
- + Possibility to present your own investment offer in the exhibition area
- + Opportunity to establish new business contacts
